GUARDIAN^{G6.0} TECHNOLOGY: Nonstop Innovation

**YOUR DOOR SYSTEM IS ONE OF YOUR
MOST VITAL PIECES OF EQUIPMENT.**

When your medical equipment isn't functioning properly, your patients aren't being treated, and that can be costly. The same holds true for your shielded door system. If your door isn't operational, neither is your medical facility.

As demand for radiation therapy increases, it's more important than ever for your shielded door system to function without interruption every day. Welcome to a new level of round-the-clock reliability with GUARDIAN^{G6.0} Shielded Door Systems.

- **Next-Gen GUARDIAN** – Sets new hi-tech standards in operational efficiency
- **First and Only All-In-One** – GUARDIAN DUO eliminates the need for two separate doors
- **Maximum Peace of Mind** – 5 industry-leading safety features at peak performance
- **Minimum Downtime** – Highest-rated training and preventative maintenance

NELCO, the worldwide leader in shielded door systems, continually refines and develops the next generation of GUARDIAN entry equipment with Safety for Life!

**“THANK YOU AND YOUR CREW FOR THE
EXCEPTIONAL WORK YOU PROVIDED. THESE
PROJECTS AREN'T SIMPLE AND REQUIRE A LOT
OF COORDINATION AND FIELD COOPERATION.
WE GOT THIS JOB DONE IN GOOD ORDER AND
YOUR GOOD WORK WAS APPRECIATED.”**

- Dale Gilleland, Gilcor Construction

"OUR R&D TEAM DEVELOPED THE GUARDIAN DUO, THE FIRST AND ONLY ALL-IN-ONE MRI-LINAC DOOR SYSTEM ON THE MARKET, COMBINING SAFETY AND INNOVATION INTO ONE BEAUTIFULLY EFFECTIVE DOOR."

- Rick LeBlanc, President & CEO,
NELCO Worldwide

GUARDIAN INSIGHT: Scale Every Space

MULTIPLE APPROACHES FOR THE PERFECT ENTRY IN EACH TREATMENT ROOM

GUARDIAN Shielded Door Systems are designed in distinctly different configurations accommodating every unique specification and requirement to save space, time and unnecessary cost.

GUARDIAN SWING DOOR SYSTEM

Constantly consistent. This relentless workhorse swings into action at the touch of a button. The precision technology of the GUARDIAN Swing Door System rapidly moves to protect more people in more radiation therapy vaults around the world.

GUARDIAN SLIDE DOOR SYSTEM

When space is at a premium. For tight spaces, GUARDIAN Slide Door Systems combine the optimal operating system with dual rail linear motion so you can glide with even greater operational ease.

GUARDIAN BI-PARTING DOOR SYSTEM

Patient flow at its most efficient. With the ability to open and close in seconds, you won't find a more efficient door system for any size treatment room than our Bi-Parting Door System. Now you can have GUARDIAN protection with the most throughput.

NEW GUARDIAN DUO DOOR SERIES

The one and only fully integrated, dual-modality MRI-Linac door system in existence. Our GUARDIAN DUO door series comes in Swing, Slide and Bi-Parting configurations. Developed, proven and tested in the field, these doors eliminate the need for a space-constraining, two-door system.

NELCO SAFETY

GUARDIAN Door Systems can weigh 20,000 lbs. or more, so state-of-the-art, high-end safety features range from Presence Sensors and Reversing Edges to Infrared Light and Auto Reversing in addition to constant Battery Backup.

NELCO PERFORMANCE

Known for running on an extremely proficient, low-maintenance operating system, GUARDIAN leads the way with superior positional accuracy and rigidity, along with exceedingly quiet operation.

NELCO EFFICIENCY

Focused on precision, velocity and output, GUARDIAN is time-saving, labor-saving and cost-effective with the smoothest door operation and the ability to adjust speed, acceleration, position, stop points and more.

NELCO THROUGHPUT

GUARDIAN speed and consistency enable greater patient flow with remote door operation, and 24/7 support to keep your treatment room up and running.

NELCO DEPENDABILITY

The highest level of dependability is built into every GUARDIAN Door System with proven functionality and a time-tested design to produce incomparable neutron, photon, and particle attenuation without radiation streaming.

NELCO SPACE SAVINGS

The ability to adapt to the smallest treatment rooms allows GUARDIAN to eliminate the need for space-consuming mazes and increased construction costs, all while maximizing workspace in treatment rooms as well as patient comfort.

NELCO INGENUITY

GUARDIAN-DUO (dual modality) door is the first and only all-in-one MRI, Linear Accelerator door combining two distinctly different shielding requirements all wrapped up into one. A space- and cost-saving solution from a trusted single source.

#1 in Customer Satisfaction.
Guardian is the undisputed leader in Door Shielding System Technology.

With over 40 years and more than 4,500 installations worldwide, NELCO's Guardian Door Systems continue to be the preferred choice of the most prestigious and respected facilities around the globe.

NELCO VERSATILITY

Easily customized by the appropriate size, shielding, or installation method to fit every unique requirement, GUARDIAN is designed to be compatible with every type of equipment and treatment vault.

NELCO TURNKEY SERVICES

Complete turnkey benefits for any radiation therapy project enable you to adjust these shielded door systems to your exact specifications while taking advantage of GUARDIAN local on-site services around the globe.

NELCO SATISFACTION

The newest generation of the world's most trusted shielded door systems offers security and confidence, and the ability to set preferred user parameters, backed by our 100% satisfaction guarantee.

EINSTEIN^{G3.0} Door Control System

Where security and safety meet brains and beauty. Smart-screen interface technology offers another level of intelligence – striking, touch-screen door control.

- **Full Control** – Door openings, closings, position and stop points
- **Instant Access** – Security, safety status, history and service information
- **Simple Touch** – Easy operation with clear back-lit 12.1" smart screen

GUARDIAN™ PROCARE Door Services

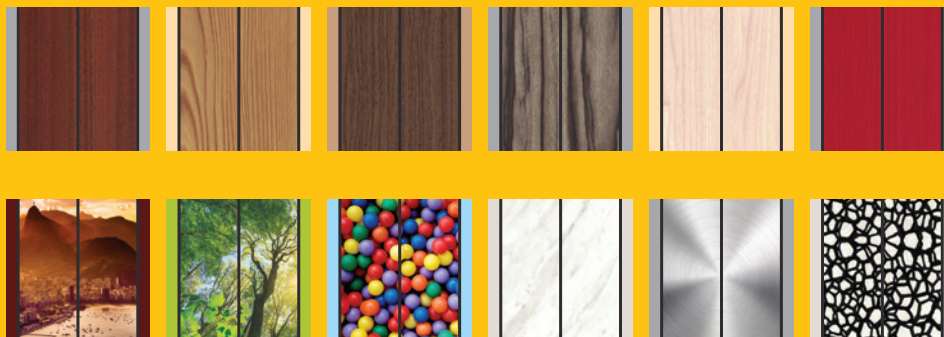

**TRAIN. MAINTAIN. REPAIR. RENOVATE.
ANY DOOR. ANY MANUFACTURER.**

To ensure that any door system is functioning properly and safely, your personnel needs the right training and mechanical, electrical and safety systems, and the best maintenance for this highly specialized equipment.

GUARDIAN ProCare Door Services offer the premier training and preventative maintenance plans for your radiation shielded and dual modality doors to keep the system safely operating at peak performance levels and to reduce the risk of unscheduled downtime. GUARDIAN ProCare team specialists service every door from every manufacturer.

CUSTOM FINISHES, UNLIMITED OPTIONS.
SKILLFULLY DESIGNED INSIDE AND OUT.

**OUR REPUTATION IS BUILT ON PROTECTION.
EVERYWHERE. EVERY DAY.**

With the largest install base in the world, NELCO Worldwide provides powerful shielding solutions that make critical radiation therapy treatments possible. NELCO is in every one of the top 10 and in 48 of the top 50 hospitals in the United States. Our 87 years of experience and expertise in the industry provides peace of mind, knowing that you and your patients are protected by the best radiation shielding technologies anywhere.
